2006-07~	1353	1186	1328	<b>Yes</b>	<b>No</b>	<a href="#">Southeast 2007.pdf</a>
2007-08~						

Safe Harbor (SH) can be achieved by:

decreasing the percent of students scoring below satisfactory by 10% and making progress, or

exceeding the additional indicator performance target, or

demonstrating a 10% increase in the difference between the previous year's math and/or reading/language arts *API* score(s), and the upper *API* limit of 1500 (New amendment allowed for 2003-2004).

A Confidence Interval (CI) is generated for schools or districts without an *n* of 30 for *All Students*. A confidence interval may be applied to the current year's math or reading scores in order to make an AYP determination.

API Targets	Math	Reading	Attendance Rate
*	648	622	664
^	790	768	664
~	932	914	664
