All concurrent students must have a signed statement from their high school principal stating that they are eligible to satisfy requirements for graduation from high school, including curricular requirements for college admission, no later than the spring of their senior year. Students must also provide a letter of recommendation from their school counselor and written permission from a parent or legal guardian. A high school student may enroll in a combined number of high school and college courses per semester not to exceed a full-time college workload of 19 credit hours per semester. For purposes of calculating workload, a .5 high school unit shall be equivalent to three semester credit hours of college work. Each high school junior or senior who meets the eligibility requirements shall be entitled to receive a tuition waiver equivalent to the amount of resident tuition for a maximum of six (6) credit hours per semester. Students are still responsible for any fees or required materials for each course.

Minimum ACT Subject Scores for Concurrent Enrollment in Courses in Subject Areas

At minimum, concurrent students shall demonstrate college readiness in a particular subject area to be eligible to enroll in a college-level course in the corresponding subject area. A high school student not demonstrating college readiness in science reasoning, mathematics or English will not be permitted enrollment in the corresponding college subject area. A student who is unable to demonstrate college readiness in reading will not be permitted enrollment in any other collegiate course (outside the subjects of science, mathematics and English). Concurrent enrollment students are prohibited from enrolling in any form of developmental education, including any configuration in which developmental education is embedded within a credit-bearing course. A concurrent student will be eligible to enroll based on the criteria detailed in the chart below.

Curricular Area	English	Math	Reading	Science
ACT Score	19	19	19	19

HIGH SCHOOL STUDENTS IN TECHNOLOGY PROGRAMS

High school students can complete their high school studies while earning college credit toward an Associate in Applied Science (A.A.S.) degree by successfully completing recognized assessments, and colleges in Oklahoma may award college credit for the successful assessment.

Concurrent Enrollment for Dual Credit

6 HOURS OF FREE TUITION

Concurrent courses may be taken in the summer or during the school year, and students can take up to six hours of free tuition. However, if arrangements are not made with the counselor, students will be liable for all tuition and fees. Students will be responsible for any applicable fees or books required.

- Any college course taken through concurrent enrollment, but not listed above, is approved by OKCPS for elective credit and will count towards high school graduation requirements. Courses that are one (1) and two (2) hours will be transcribed as a ½ unit for high school credit and courses that are three (3) will receive 1 unit.
- Students may seek approval for academic core credit for courses not listed above. Requests for consideration must be made by a school administrator or counselor. The Graduation Substitution Form will serve as the request, and the form shall be submitted to the Curriculum, Instruction, and Assessment Office no later than ten (10) school days prior to the start of the college course.
- All concurrent college courses, where credit is earned, will be entered on the high school transcript along with the grade earned in the class. Grades placed on the transcript will be used for GPA and class ranking calculations and will be assigned a 5.0 weight on the OKCPS weighted grading scale.
- Students must adhere to the GPA requirements set forth by the college to remain eligible to enroll in any courses for the following semester.
- College course grades will be monitored and used for determining OSSAA eligibility on a weekly basis and students are required to follow the procedures for reporting grades to the high school.
- Students will be required to provide an official transcript with final semester grades for each college course taken concurrently. Transcripts should be submitted to the high school registrar no later than five (5) school days after grades are made available by the higher education institution.
- Although grades lower than a C will be transcribed for high school credit, some colleges may require the course to be repeated in order to fulfill degree requirements.
- Students who withdraw from a course during the semester without enrolling in another college course during the same term are required to notify their high school counselor within one (1) school day. Students will be enrolled in a high school course at that time, which may or may not count for high school credit depending on the date enrolled.
- Students who fail to report grades or to notify their counselor as specified above may receive additional academic and/or disciplinary consequences which may include an F grade assigned for the concurrent course or assigned elective.
