Isaac Hines

AIA

Design Architect / Project Manager

12 years of experience

Design Architect Isaac Hines is responsible for creating the initial design sketches for our clients, and from there he coordinates between the architecture, engineering and interior design staff, providing oversight to make sure the documents stay true to the design throughout the process. Isaac has a wide range of project experience ranging from schools and universities to office complexes and mixed-use designs as well. Isaac is a firm believer that every lesson learned can be carried forward to the next project, regardless of type or budget, to continually create better architecture.

Blair Tillman

MHR, SHRM-CP

Community Outreach Liaison

Blair Tillman is a people person, and serves as our Community Outreach Liaison for this project. She has a passion for helping people and a knack for public speaking. With a masters in Human Resource and a certified SHRM professional, Blair is adept in helping multiple stakeholders build partnerships and trust. This helps throughout the life of the project, as multiple design reviews occur and their will inevitably be meeting to review concern or questions. When she is not helping out on projects, Blair is assisting in the Human Resources department at FSB as a Human Resources Coordinator.

John Semtner

PE, LEED AP, BEAP

Project Principal

19 years of experience

FSB Principal John Semtner plays a critical role in every local project and has extensive experience in the design of complex mechanical systems. John's oversight ensures creative solutions are developed which fit our clients' budgets, while minimizing operating and maintenance costs. He has played a key role in the design and project management of projects large and small, including educational facilities from early childhood development to universities. While obtaining his Master of Science degree from the University of California at Berkeley, he focused on computational fluid dynamics.

Tracy Wood

NCIDQ

Interior Designer

19 years of experience

A graduate of the University of Central Oklahoma's Interior Design program, Tracy Wood provides design and space planning for a variety of projects in all our markets. Known for being creative and a team player, she works closely with clients, user groups and the design team to develop functional and flexible environments which meet the performance needs and intent of each space. Her day-to-day duties involve not only design and space planning, but selection of furniture and finishes, preparation of construction documents, development of furniture specifications, facilitating pricing and procurement and preparing color/material boards.
