

The **mission of the Academy of Entrepreneurial Studies** is to build the capacity for philanthropy through teamwork, collaboration, problem solving and leadership with service learning focused on the Global Sustainable Development Goals to help students be career and college ready.

**AdVenture Capital** @AdCapYOUth · Apr 2  
 Congratulations to Faith and her FCCLA chapter at @OCMHSBison for winning the @NationalFCCLA #FCCLAGetsHealthy #AdCap challenge. They're receiving \$1000 in support from AdCap for Faith's BIG idea to help increase breakfast participation!

The Oklahoma Centennial Academy of Entrepreneurial Studies will allow students the opportunity to become familiar with the business world and the variety of skills necessary to be successful as an entrepreneur. Students will learn about Finance, Technology, Customer Service and Entrepreneurship through classroom activities as well as course projects. During their last two years in the academy students can choose to focus their coursework in Health and Wellness, Hospitality Management or Visual Arts Leadership.

**ACADEMY OF  
 ENTREPRENEURIAL  
 STUDIES**

# Hospitality Management

Students wrote business plans and presented their ideas to real industry sharks from the Oklahoma Restaurant association at the ProStart Student Invitational. Students learned and applied skills for teamwork, time management, research, problem solving, critical thinking and interviewing.

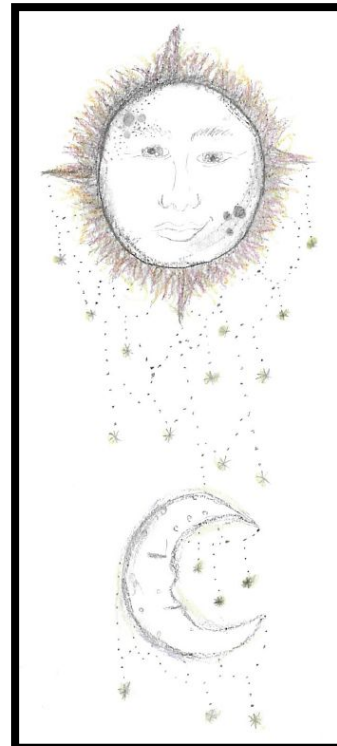

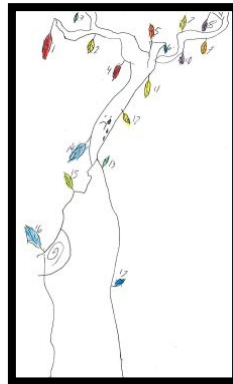

# Health & Wellness

Students visited Diagnostic Laboratories of Oklahoma to learn about medical careers. They toured the site, interviewed employees and had hands on learning activities that included using a microscope to see different bacteria smears. Did you know you can take a picture of the magnification using a smart phone?

# Visual Arts Leadership

Students created art for the Students Rebuild project Facing the Difference to raise funding for CARE and Search for Common Ground, helping youth on different sides of conflict build peace.

# Community Leadership

Students had a field experience at Fort Sill where they learned about the Crime Investigation Department (CID) and the skills and methods they use to solve crimes and protect our country.
