

Did you know our families speak **+65 languages?**

And OKCPS speaks all of them!

Language Link provides **free over-the-phone interpretation** services for our families and community members at all of our schools. If your student's parent or guardian are non-English speakers, use the Language Link and you will be able to communicate with them. By embracing diversity and engaging our families, you are helping our students succeed!

Accessing Language Link

If you don't know what language the parent or guardian speaks, ask the visitor to point at their language on the language identification card. Please have available a phone with speakerphone to make the call. Follow these steps to access the service:

1. **Call 1 (866) 477-5343**
2. Enter Account Number **24326**, followed by **#** sign
3. Select 1 to be connected directly to your Spanish interpreter, or Select 9 for all other languages
4. Once connected to the interpreter, place the phone on speaker to enable the parent/guardian to also listen to the interpreter

**For a three-way call, select the language needed. Once connected to the interpreter, provide the parent/guardian's phone number and the interpreter will add him/her to the call.*
